Without Their Wives. Other Eastern Dispatches-Sensa tional Suicide of a Dude-Another

Phase of the Arkansas Elec-tion Cases. By Tel graph to The Times.

NEW YORK, April 25.—[By the Association of ated Press. A man who is abundantly qualified by his connection with the Cen-tennial Celebration Committee to speak advisedly, told a Tribune reporter vosterday that the trouble with the diplomatic corps over invitations to the ball, instead of hav-

over invitations to the ball, instead of nav-ing been settled satisfactorily, as was stated in a recent document, issued for publication by the Entertainment Com-mittee, had become so serious that the principal members of the corps had finally and positively refused to come.
"Not a member of the diplomatic corps," said he, "will be in attendance at the ball,

with the possible exception of the Brazillan Minister, Baron Deita Juba, or in his absence, Senbor José Augusto Ferriera da Costa, Secretary of Legation."

The trouble with the diplomatic corps originated in an omission by the Entertainment Committee to inclose to the fortier musicary invitations to the bail for the

laties of their families as well as for themselves.

The 16 ladies who will dance in the quadrille of henor at the Centennial ball, according to the Tribune, have at last been determined upon as follows: Mrs. Henjamin'Harrison, Mrs. Levi P. Morton, Mrs. Grover Cleveiand, Mrs. Grace King, Mrs. Alexander Van Rensslaer, Mrs. W. Bayard Cutting, Mrs. William Aster, Miss Cora Livingston, Mrs. Newbold Morris, Mrs. Elbridge T. Gerry, Miss Louisa Lee Schuler, Mrs. Buchanan Winthrop, Mrs. Stuyvesant Fish, Mrs. William Jay, Mrs. S. V. B. Cruger and Mrs. Alexander S. Webb. Phr. ADELPHIA, April 26.—Amid the tooting of whissies from other steam craft, the cruiser Yorktown cut loose from her moorings at League Island Navy-yard this afternoon, and steamed down the river on her way to New York to take part in the naval demonstration of the inaugural celebration.

NORTHERN PACIFIC.

The Deal with Wisconsin Central

The Deal with Wisconsin Central Still Hangs Fire.

New York, April 28.—[By the Associated Press.] At a special meeting of the Northern Pacific directors today the resolution agreeing to an arbitration contract for the control and harmonious operation of roads in the Pacific northwest was rescinded. This ends the scheme to obtain a guarantee of dividends on Oregon Navigation stock from Northern Pacific jointly with Union Pacific, and throws the burden of the lease on Union Pacific.

The proposition to operate the Wisconsin Central on a percentage of earnings was discussed, and three forms of the proposed contract were presented. Only one was received, however, after which the board adjourned to meet again next Thursday.

After adjournment, it was announced that Braton Ives, who is one of the most active members of the Northern Pacific board, had resigned his office as the vice-president of its Oregon Transcontinental Company, to take effect May 1st. This is understeed to indicate that the relations of the old Northern Pacific directors with Villard have been severed, and it is expected that representatives of the Oregon Transcontinental in the Northern Pacific directors with Villard have been severed, and it is expected that representatives of the Oregon Transcontinental in the Northern Pacific will withdraw from

LITTLE Rock (Ark.), April 25.—[By the
Associated Press.] There was something
of a sensation in the Federal Court today
when the Grand Jury marched into open
court with C. C. Reld, a young attorney of
Morrilton, and announced that they had
asked him a question about the Plummerville ballot-box theft which he refused to
answer. The question was: Little Rock, Ark.

answer. The question was:
"Did O. T. Bentley have any conversa

tion with you in relation to, or did he tell you anything about, the theft of the Plummerville ballot-box?"

In court Reid again refused to answer, and the Judge asked him if he and Bentley sustained the relation of client and attempt to asked other.

torney to each other.

This Reid also refused to answer. The Judge gave him until tomorrow morning to answer one of the two questions.

O. T. Bentley is a deputy sheriff, and, according to Taylor's confession, was one of the party that went from Morrilton to Plummersville with the crowd that stole the ballot-box.

New York City,
New York, April 25.—[By the Associated
Press.] Oliver Perry Lewis, aged 21,
drowned himself today in Central Park reservoir. He was dressed in a clawham-mer coat, white tie and other habiliments of full dress. Before drowning himself he had fixed the day and hour of his funeral, and had himself sent out notices to his friends asking them to attend it. It is supposed he could not support his mother as he wished on his salary and therefore killed himself.

The Manitoba Road's Programme The Manitoba Road's Programme.

New York, April 25.—The annual meeting of the Monitoba road was held here today. George Stephen and Sir Donald Smith were made members of the board of directors. It was stated that \$8,000,000 of Manitoba stock bought by interests identified with the Chicago, Burlington and Quincy two years ago had been resold to the original holders.

It is believed that the changes just made are part of the programme by which all extensions of the Chicago, Burlington and Quincy, including the Burlington and Northern, will be cut off and a new association formed of roads between Chicago and St. Paul which will pool business from all lines in the north and northwest.

Terrible Narrative of the Sufferings Caused by Famine in the Flowery Kingdom-A Harvest

of Death-Notes.

By Telegraph to The Times.

SAN FRANCISCO, April 25.—|By the As sociated Press.] The steamship Rio de Janeiros arrived today from Shanghai and Hong Kong with mail advices up to March 27th from Hong Kong, and April 8th from Velcohem.

Yokohama.

The foreign ministers and their First ecretaries of Legation were recently given a banquet at Peking by the Tsung Ti Ya en in connection with the marriage of the men in connection with the marriage of the Emperor. Speeches were delivered by Prince Ching and the American and German ministers, in which assurances of friendly feeling were reciprocated.

Rumors are again current as to the illness of Li Hung Chang. It is stated that he is os osriously indisposed that he can scarcely articulate distinctly.

Admiral Belknap, United States Navy, commanding the Asiatic equadron, arrived at Yokohama April 6th.

THE GREAT FAMINE.

THE GREAT FAMINE. On the 5th of March, Mr. Laughlin wrote from his new center of distribution, Pi-Tz-Kou, as follows, with regard to the famine:

"There is not much new to be added to what I have written before. All that I said about our villages and the people about Yenkia Fag-Ty is true. Those here having received no aid during the winter are in a more deplorable condition than the former. Their houses are barer; well-to-do persons are rarer, and the famine color is frightfully common. In fact, nearly every person one meets bears unmistakable marks of long-continued fasting. The last or one of the last stages is a swellen condition of the whole body, including the face, eyelleds, etc., and in the village now I meet these cases in great numbers. For them death is not far off. In every village death is reaping a rich harvest the only harvest these suffering people have known for a year." from his new center of distribution, Pi-Tz-

No Letters Can be Carried from France to the General in England-Other Newsfrom

By Triegraph to The Times.

OTTAWA, April 25.—[By the Associated Press.] John H. Allen, one of the owners of the American ship Bridgewater, seized by Canadian customs officials at Shelburne and detained for 81 days, is here pressing his claims for damages. He originally sought compensation to the extent of \$23,000. He came here direct from Wash-

ington, where he had interviews with the Secretary of State. He said today: The Government wishes me to accept a flat enabling me to prove damages in the Exchequer Court. I will not accept it. The

secure is now an international question and is the subject of diplomatic correspondence."

Allen says he will secure at least \$50,000 damages, the amount he would be entitled to under the treaty between the two nations, unless a prompt settlement is effected.

GEN. VANDEVER.

BANQUET TENDERED HIM BY THE UNION LEAGUE.

sant and Modest Address b Congressman Vandever-Why He Is Proud of His District-Lower California-A Well-attended and Jovial Feast.

Last night the Union League tendered Gen. William Vandever, M. C. reception and banquet, at the Na deau House. No one was admitted ex cept members of the league, prerepresentatives and a few guests from outside places. About 60 gentlemen gathered in the hotel parlors and spent a pleasant hour shaking hands with the General and congratulating him on his success in Congress. At 9:30 the dining-room doors were

thrown open, and the company, with Gen. Vandever and president of the evening, A. J. Kelley, in the lead, passed in. Plates had been set for 100 guests, and a magnificent lunch weighed down the table. Gen. Vandever and President Kelley took their places and the guests arranged them. places and the guests arranged them selves around, when the signal to be

selves around, when the signal to be seated was given.

For 30 minutes the banqueters devoted themselves to the lunch, and then the wine began to flow. In a few minutes everybody was ready to talk, and a number of good stories were passed around, when the president of the evening called the meeting to order, and Gen. Vandever was called on.

passed around, when the president of the evening called the meeting to order, and Gen. Vandever was called on.

The General was in fine spirits and seemed to be in better health than he has enjoyed for some time.

He rose slowly to his feet and after casting his eye over the audience he stated that he never felt more highly flattered in his life, for he felt from the bottom of his heart that he had the good will of everyone at the table. When I look over these friendly faces it makes me proud to know that I have served the people of Southern California is rapidly becoming a household word in the East and it does a man good to know that he represents such a country. It is only a few years since this country was comparatively unknown, but it has made such rapid strides towards prosperity and civilization that it is now looked upon as the most wenderful land in the world; in fact, I look upon my district as a greater country than New York and the whole of New England and believe the time will come in the near future when we will have a bigger population than they. There is nothing impossible in this day and age. Everything that can be grown under the sun is produced in this country, and all we want is factories to make this the center of the earth. Just look back at the Los Angeles of a few years ago and at the great city of today. Then we had no railroad, but today we have palace cars whirling into the city, bringing people from every quarter of the globe, and these roads have been built by our California men. When I first came to the place I was carried across the plains by mule teams, but how I travel in a palace car. We have everything—harbors, climate, wealth and all that man can wish for, and above all other things, my friends, we have health. Some authinking ones say the boom is 'thisted,' but I tell you there are millions of faces turned westward and they will reach us in good season, thousands of them before we are prepared to receive them. Up to a few months ago we were looked upon with disfavor in the C

Adams and Col. E. J. Ensign of San Diego.

A good deal of amusement was created when the cool, calm, dignified W. H. Seamans, who had sat dreamily back of President Kellev during the speechmaking, rose to his feet, and in a deep stage voice spoke as follows:

"I hold in my hand a package which has just been sent in by one of the lady guests of the hotel. It is addressed to the hungriest and handsomest man at the banquet table. When I cast my eagle eye down the table it rests on the handsome face and hungry form of my friend, Sutherland Hutton, and instinct tells me that the lady, whoever she may be, intended the present for him. Here, waiter, pass this to yon gentleman," and he sat down, dignity and all, amid the loud cheers of the audience.

When the package was opened a small cloth rabbit dropped out, and Statesman Hutton was so overcome that he could not find his voice.

This wound the reception up, and the guests filed out, well pleased with themselves and the world at large.

No Damages.

There was a non-suit yesterday in the damage case before Judge Wade, Department No. 3 of the Superior Court, of Andrew Johnson and Amelia Johnson vs. William S. Wilson and M. T. Knox. This is the case where Mrs. Johnson was knocked down by steam from an escape pipe in the Los Angeles Steam Laundry, at the corner of Second and Vine streets. She was at the time in a delicate condition, and the shock brought on a miscarriage. The examination of witnesses was concluded yesterday morning, and the defendants asked for a non-suit. The Court granted the motion on the ground that the proof did not show carelessness, as alleged, on the part of the defendants. There was a non-suit yesterday in

Eight Hours.

The eight-hour system is about to be established in this city. Yesterday J. A. Ward, the brick contractor, broke the ice by ordering his foreman at Long Beach to knock off at 4 o'clock today instead off 5, as is the custom. The laborers of Los Angeles have been fighting for this for a long time, and it looks now as if their prayers will be granted. Mr. Ward intends to establish the system have in Los Angeles has soon as well.

IN LOVE AND SPASMS.

A Girl Who Thinks too Much of a Married Man. Last night a Times reporter heard that Miss Eva Wilbur, a young lady re-siding with her mother, Mrs. Hallack, at No. 20 Mayo street, had shot herself

under rather peculiar circumstances, and that she was not expected to live. Inquiry at the house brought out that, while the case was not as serious that, while the case was not as serious as was reported, there was quite a story connected with the affair. From persons living in the house it was learned that the young lady, who is only 17 years old, made the acquaintance, about a year ago, of a musician named Hugh Alger, a married man, who was formerly connected with a band in this city. Alger passed himself off as a single man, and paid the girl a good deal of attention, taking her to places of amusement, and visiting her at her home. Three or four months ago she learned that he was married, and her mother tried to get hor to break off with him, but the fellow had gained such an influence over the girl that she found it a rather difficult task. About this time Alger went down to Riviera, where he is engaged in making orange boxes, but came un twice a week and always.

the girl that she found it a rather difficult task. About this time Alger went down to Riviera, where he is engaged in making orange boxes, but came up twice a week, and always made it a point to see the girl. He did not come to the house, but would get across the street under some trees and whistle to attract her attention, when she would go out and meet him. Alger came in Wednesday, and that evening Miss Wilbur went out to meet him. Her mother had frequently threatened to have Alger arrested if he did not cease his visits, and asked her daughter to allow her to accompany her. This was refused, and she started up the street toward Main, but it is claimed that she fainted when she had gone but a short distance, and was taken into a neighbor's house, where she went into convulsions. Others claim that she was brought home, where she obtained possession of a loaded pistol, stuck the muzzle in her mouth, and attempted to kill herself, but was preverted from doing so. Be this as it may, she has been in a dangerous condition ever since, one convulsion following another, until she was almost exhausted. Dr. de Szigethy was called in, and took charge of the case, and last night at 10 o'clock she was sleeping for the first time since Tuesday night.

There is a great deal of indignation among the men in the house, and last night Alger told Officer Smith that some of them had threatened to shoothim if he came around any more. They say that they will make it very warm for him if he does not cease his attentions. Alger's reputation is not good, and he is said to have figured in several cases of the kind before. The girl, while only 17 years of age, looks older, and is very attractive in appearance. She is quite popular, and has had numerous admirers. Mrs. Hallack, her mother, is greatly distressed over the affair, and it is more than likely that she will take steps to prosecute Alger, now that the matter has been made public.

It being known that Mr. Ward of the Board of Trade and Mr. J. B. Lankershim had lately visited the exhibit in San Francisco, it was decided to call a meeting of the chamber on Saturday, April 27th, at 3:30 p.m., and to invite Messrs. Ward, Lankershim and any others having information on the subject to be present and to address the chamber.

Two letters just received from the secretary of the State Board of Trade were read. They will give some idea of the working of the board, and how local societies are benefited thereby. If Los Angeles desires the hundreds of people who visit the exhibit to be informed about her resources, she should put in, and at once, a creditable exhibit or else withdraw altogether. W. S. Andrews of Middletown, Mass., who visited these headquarters a year ago, now wants pamphlets, papers and realestate catalogues showing the price of land to several parties who are coming to California this summer. There is quite a stir in Middletown for California.

W. L. Few, Jr., of Lockport, Niagara county, N. Y., says that there are several families who had partly made up their minds to emigrate to Virginia, but viewing "California on Wheela," are impressed with this State. They want to know the best county for general farming and the cost of land adapted to fruit and veretables. He praises your exhibit cars. Please send to this party everything you have in the advertising matter.

H. J. Eaton of Portsmouth, N. H., says: Give facts about counties. I have capital, and want to invest where there is a show of increase. I want to change climate, but must have a place near a railroad.

RAILROAD ACCIDENT.

RAILROAD ACCIDENT.

An Engine Flops on Its Side with Little Damage.

There was an accident on the Burbank branch of the Los Angeles and Pacific Railway near the old ostrich farm at 2:15 yesterday afternoon. In consequence of the spreading of the rails the engine left the track, and after plowing along over the ties for a couple of rods turned over on its side. The fireman jumped, but Engineer Rohrer staid at his post and was gracefully dumped when the engine went on its side. Nobody was hurt. There was but one car attached to the engine, and this did not leave the track. The track will be in shape for traffic today, and the business of the line will go ahead as usual, though the engine may not be ready to put into service for several days.

#### ABOUT GAMBLING.

THE POSITION OF THE COM-MISSION DISCUSSED.

Mr. Knox's Resolution and What It Means - All Sorts of Stories About Arrangements and Compromises - Policemon at the Doors of Several of the Houses.

The gambling proposition continues to occupy a large share of the attention of the police authorities, and yesterday Mr. Knox's resolution, introduced at the meeting of the commission, Wed-nesday afternoon, was generally dis-tussed. This resolution puts the commission squarely on record as opposed to any and all gambling, either white or Chinese, and the Chief is instructed

to any and all gambling, either white or Chinese, and the Chief is instructed to close and keep closed all houses where gaming is carried on.

Theoretically, gambling has been suppressed ever since the new adminstration went into power, but practically, and as a matter of fact, such has not been the case. As published in THE TIMES, the Chinese tan games have been allowed to run, and only raided occasionally, and the money thus collected has gone into the city treasury. The white games were ordered to close, and many of them did to, but three or four of them have been violating this order, among them Whipple's on Main street, Duke's on Court, Webber's on First, and the games on Main and Third and the place on Commercial between Main and Los Angeles. Those places have not been running regularly, but whenever an opportunity presented they would take a "flyer." The new place fitted up in connection with Rodman's pool rooms on Spring street, in the rear of the Nadeau, by Rickabaugh and Chapman, has not yet attempted to run.

There have been all sorts of rumors as to arrangements being made with the Police Commissioners by which the games were to be raided and the money covered into the city treasury, but it has been impossible to get anything like a reliable statement in regard to the matter, as the gamblers are very non-communicative, and the commissioners have always denied all knowledge of anything of the kind.

One story was to the effect that the houses were to be taxed \$150 per table per month, the games to be raided, and enough players brought in to make up that amount. It was freely asserted that this arrangement would have gone into effect but for a dispute between the rival factions, who were also opposed to the place under the Nadeau.

It has also been stated that a prominent Democratic politician has been

Nadeau.

It has also been stated that a prominent Democratic politician has been trying to bring about an adjustment for and in consideration of \$1000 in cash, and while quite a number of persons claim to be fully posted on this proposition, no one will come forward and make an affidavit to that effect, so that the case can be got into court. It is also said that a prominent gambler has been receiving boodle, but no one will father the story.

been receiving boodle, but no one will father the story.

These are but examples of the numerous stories that are affoat in regard to the white gamblers; the Chinese proposition of \$120°per raid has already been proven. One peculiarity about Mr. Knox's position is the fact that he introduced his resolution and asked that it go over for one week—for what purpose is not known.

In the meantime, Chief Burns says that all the games must close up, and last night stationed policemen at the doors of the houses which have been running, and if they still perfist, it is more than probable that the doors will be broken in. There has always been a great deal of talk about prosecuting officers for housebreaking for this sort of thing, but it is not believed that such a prosecution would hold in a court.

court.

The Police Commissioners will meet this afternoon, when there may be some developments.

FOR ARSON. .

Robert Levine, the Saloon-keeper, on Trial.

The Robert Levine case was begun in Judge McKinley's department of the Superior Court yesterday, with a fair prospect of lasting several days. Levine is charged with setting fire to his saloon, under the United States to his saloon, under the United States Hotel, on the night of January 25th. His alleged object was to secure insurance money. The fire was discovered in time to prevent a disastrous conflagration, and was clearly of incendiary origin. The firemen and detectives discovered careful preparation for the fiendish plan. Coal oil had been poured around, straw was conveniently placed, and most damning of all, a burning candle end was found in a locker behind the counter, and one not burning in another locker. The evidences of the crime were complete. Levine, it is claimed, is clearly connected with the crime.

The examination of witnesses for the prosecution occupied the attention of the court during the day. When court diplumed the testimony so far introduced bore upon the fire and its incendiary origin. The firemen and detectives who were present and investigated the fire gave their evidence materially as at the preliminary examination. No new facts were brought out by them. The articles found behind the counter were produced and identified.

The prosecution is represented by Assistant District Attorney Donnell and C. C. Stevens, and the defense by Messrs. Payton and Grant.

Housekeeping Tramps.

Yesterday afternoon about 1 o'clock Officer John Stephenson captured a gang of tramps who had taken possession of a small shanty on Alameda street. They were four in number, all past middle age; and were about as tough a lot of customers as could be picked up anywhere. The men got into the house by some unknown means and proceeded to make themselves at home, setting up housekeeping in the most approved style, eating, cooking and sleeping all in one room. Their outfit was brought to the police station, and proved to be a genuine curlosity. The agent of the owner of the building, Mr. Sumner, called at the station and stated that the men had no right in the building, whereupon the men were locked up as drunk, all of them being more or less under the influence of drink. They gave the names of Jack Knott, Tom Connally, McLaughlin and George Ellis.

THE electric light has found its way into Japan and is one of the many evidences of its advancing civilization.

OUR numerous fellow-citizens in Los Angeles, of French descent, intend to celebrate the fourteenth of July, their national fête day, in firstclass style.

Boston, with all its boasted culture, is said to be the greatest market in the United States for the sale of lottery tickets. Culture and morality do not always go together.

JAIL birds were plenty in official positions under the last Administration but there has not one been appointed to office since the late era of Democratic "reform" closed.

THE Police Commissioners have made stringent rules against the acceptance of bribes by policemen. So far, so good. Now let them see that the rules are rigidly enforced.

Los ANGELES last year shipped away 8095 tons of citrus fruits, and imported from the East 7021 tons of We must get our exports ahead of our imports, and keep them there.

THE Government promises to make it warm for deputy United States marshals who gained access to Oklahoma and made an early selection of lots under the pretext of being there on official duty.

REV. WILLIAM HENRY HARRISON ADAMS wants to be Chaplain of the United States Senate. He thinks a man who carries around with him the names of four Presidents ought to have something under this Administration.

IT looks as if the first harvests of Oklahoma would not be of the most desirable character, for the boomers are carrying more pistols than plows into the territory, and they are not the most efficient tools for agricultural

SENATOR PAYNE of Ohio has put a \$100,000 mortgage on some of Cleveland property. The Senator lost heavily by the defalcation of the Democratic City Treasurer of Cleveland. Besides, there is a Senatorial election

Gov. SWINEFORD of Alaska is in Chicago. He says he does not envy his successor. To use a slang phrase the Governor says "the job is no Gov. Swineford has interests in Alaska which will force him to re-

An application has been made by the American Atlantic and Pacific Ship Railway Company to the Supreme Court of New York to restrain the Nicaragua Canal Company from issuing stock on the ground that the applicant has the original grant from the Nicaragua Government.

OUR new Postmaster-General is in favor of one-cent postage after a while, after the postal service has been regulated and improved, and he says that he hopes to reach this subject practically some day. Without doubt the time will come when this change will be inaugurated, and the ntelligence of the country will welcome the change.

NEW YORK city proposes to improve her parks, and she has recently effected a loan of \$9,000,000 for that purpose, at the low rate of two and a half per cent. interest. Money must be elenty in the great American metropolis, and there must be a large amount of capital there seeking investment, ch a low rate of interest would not obtain.

Time changes all things. It was suggestive of the change that time has wrought since the days of the rebelwhen the new Governor of Wyook the oath of office the other The man who administered the hich the Governor swore to defend and obey the Constitution of the United States, was Judge Saufley, a former rebel soldier, and the man

#### A NATIONAL DISGRACE.

The all-important question of which sixteen ladies are to be honored with positions in the grand quadrille at the Centennial ball has at length been settled, according to a dispatch from New York. Now, we may expect to witness a large amount of heart-burning and jealousy on the part of other fair dames who think that their claims to precedence are equally great, if not greater, than those who have been chosen.

While this one detail has been set tled, however, another, and apparently greater, difficulty has loomed up on the horizon, which promises to mar the general good humor which should attend a celebration of this sort. Our dispatches this morning announce that the trouble which had already been intimated to exist with the diplomatic corps, over invitations to the ball, instead of having been settled satisfactorily, as was re-cently stated by the Entertainment Committee, has become so serious that the principal members of the corps have finally and positively refused to attend, in consequence of which it is said that the only foreign representative at the ball will be the Brazilian Minister. The trouble seems to have arisen from the failure of the Entertainment Committee to exercise the common courtesy of inclosing tickets for the ladies of the ministers' families, as well as themselves.

The entire history of the prelim inary steps for this inauguration celebration, with its petty meannesses and jealousies and bickerings, is disgusting in the extreme to all patriotic Americans and right-thinking citizens. That so much nauseous flunkevism should attend the arrangements for the centennial celebration of the inauguration of the head of a great democratic Government shows all too plainly how far our great cenpopulation are drifting from ters of the simplicity which characterized the early days of the Republic. It is to be hoped that these unfortunate occurrences may lead to a reaction in favor of manly worth in preference to

#### vulgar display. TELLING FIGURES.

A more complete refutation of the misrepresentations of certain eastern journals regarding the business condition of Los Angeles could scarcely be found than that contained in the following array of official figures, show ing the increase during four years in our public schools, which contribute a reliable census of our population. The figures are furnished by the Superintendent, Mr. Friesner, and may be relied upon as correct:

Your editorial in this morning's issue of

Highest monthly enrollment: For year 1885-86.... 

If a "busted boom" produces such results as these we say bring on some more booms and let 'em "bust" as soon as possible, if not sooner, for the especial delectation of eastern croakers and newspapers of the Joe Mulhatton order.

JOHN F. SWIFT was the guest of the evening at a banquet given by the San Francisco Chamber of Commerce on Monday last. In a speech which Mt. Swift made he referred to the advantages enjoyed by California in com-peting for the trade of the Orient. He showed that the center of this trade has steadily moved westward-to Venice, to Amsterdam, to London, till now San Francisco, possessing a location of unrivaled advantage, and with American enterprise and energy, comes into the arena and demands leading place. Mr. Swift concluded

as follows: as follows:

Whether or not our city shall, within the lifetime of the present generation, advance to the first place in the Oriental trade, depends largely upon the men now gathered within this hall. I shall try to do my best, and doubt not that others will do as well. It will be my duty to assiduously sultivate kindly relations with the country to which I am sent, so that Americans shall be welcomed as friends and respected, trusted, as courteous, just and honorable neighbors.

HERE is a charming picture of Oklahoma, as painted by a retired army officer, who has been there:

officer, who has been there:

"The Oklahoma boomers will find the whole country occupied when they get there, and they will have a sweet time fighting for possession. The first and strongest tenant is the skunk. They are there—thousands, millions of them. When I was in Dodge City the Indians used to kill them in season and sell the pelts, which were brought to Dodge City by the traders in beles by the wagon load. It will be years before a chicken can be raised in Oklahoma. Next comes the bed bugs. They are a thousand times worse than the sand files and are indigenous to the country. The soil is full of them. Go into a corn field and turn down the husks of the corn in September and they will sourry out by the score. I pity the women who go there. Some of the Oklahoma country down toward Texas is very good land, well watered and fertile, but up through the Cherokee outlet it is as dry as Western Kansas and as worthless. Not one crop in three can be matured op account of the dro utb."

A BUFFALO paper, prints a letter from Gladstone, containing the following graceful tribute to the Inaugura tion Centennial:

tion Centennial:

"When your great country is about to celebrate the centennial anniversary of the inauguration of George Washington as the first President of the American Commonwealth, I have been requested from Chicago and elsewhere to intimate the assurance of my participation in your national joy. It is a real and grateful participation, for statesmen of the American Revolution have taken their place for aye, and among the greatest political instructors of the world, George Washington was their acknowledged and illustrious head, and to him and to them I have long felt that I owed no trivial part of my own public education. Long, without limit of length, may that union flourish, under the blessing and favor of God, with the foundation with which their names are inseparably associated."

CHIEF BURNS appears to be in earn est in his determination to force dis-reputable establishments into more retired locations, or at least to keep their inmates off the sidewalks. It now appears that the chief obstacle in the way of this reform is found in the objection of the owners of the

### "cribs" where the unfortunate women ply their calling. These property-owners include some of the wealthiest

men in the city-men who would carcely care to have their names pub lished in this connection, as they most assuredly shall be, unless they cease to take so unworthy and disgraceful a position in relation to the contem-

plated reform. THERE is nothing small about Claus Spreckels. In an interview in Chicago, he stated that his new Philadelphia refinery, which will start about the first of June, has cost \$3,000, 000, and is beyond question the largest in the world. The beet-sugar enter prises on the coast have just paid five per cent. dividend. The stock of a company incorporated for \$5,000,000 is now all subscribed in San Francisco. After a year's trial, ten new factories, at a cost of \$500,000 each, are to be built in different parts of California. Such an immense enterprise as this cannot fail to have considerable effect on the progress of the State.

NOTWITHSTANDING the large amoun of money that Sam Jones took away from San Francisco, and the generous treatment which he received from its citizens, he boldly asserts that San Francisco and hell are not ten feet apart, and that there is more Sunday wickedness in that city than in any other four on the earth combined. It s queer that the last city visited by the reverend gentleman is always pronounced "the wickedest" by him. Sam has none too much of the Chrishim. tian grace of charity. Moreover, he is very fond of hearing Sam Jones talk.

A RECENT scandal in this county, which has resulted in the expulsion of a Methodist minister from office, seems to point the moral that our clerical brethren show less care in the investigations of candidates' characters than is usually displayed by ordinary worldly organizations. Here is a man with a notoriously bad record in half dozen towns on the coast, yet he seems to have had no difficulty in establishing himself as a respected guide, to lead erring mortals on the narrow road to heaven and teach them virtue.

In there is one thing more than another that will convince a man that life is a failure it is to set out a lot of vines about his porch while indulging in the thought of the comfort the shade will afford when the thermom eter commences a reckless climb, and then come home at night to find that the chickens have scratched their level best to put the roots above ground, and your neighbor's white dog has made a bed of the tender young leaves on the surface of the freshlyturned soil.

Two or three years ago Prof. Graves, a colored teacher in the public schools of Atlanta, Ga., was summarily dismissed for "contumacy" in refusing to march with his pupils in a process in honor of Jeff Davis. Within a few days the same Prof. Graves has been given an important clerkship in the Government service, being the first colored man in Georgia to receive an appointment under the new Administration.

THE morning private organ continues to overwhelm Gen. Vandever with nauseous puffs. It probably hopes in this way to make the General forget the manner in which it stabbed him in the back when he most needed assistance. Gen. Vandever has, however, a long memory, and carries a memorandum book.

GEN. VANDEVER was given a pleas ant and successful banquet last night by the Union League, particulars of which will be found in our local columns. The General is meeting a deservedly warm reception in Los Angeles.

DISREPUTABLE HOUSES.

Chief Burns Disposed to Stand By His Late Order.
The "macs" and prostitutes occupying the "cribs" on Alameda, New High and Buena Vista streets are greatly exercised over the action of the Poilce Commissioners in confirming Chief Burns's order that they must get out by the 1st of May. When the order was first given, some three weeks ago, but little was thought of it by the interested parties, for the reason that they had heard the same thing before. In fact, it was regarded as a part of the regulation buncombe with which every chief of police has inaugurated his administration, and it was thought that when everything settled down nothing more would be heard of it. Some ten or fifteen women were arrested and fined for soliciting, when the hatter was dropped until the Chief revived it in the commission, stating that, while he had no disposition to persecute these women, he had ordered them to get into the second story at least of a building, or in a house 20 feet from the sidewalk by the 1st of May, and he wanted the approval of the commission. This was given unanimously, and it is believed that the Chief has backbone enough to see the matter through, notwithstanding the difficulties in the way. Already strong pressure has been brought to bear on the Chief to get him to recede from his position, and men who stand very high in the community, and who would be very indignant should their names be given in this connection are coming to him and urging him to "let up." The Chief says that he intends to stand firm, and will carry out the order without fear or favor.

The Chief says that the "maca" will also be compelled to leave the city, and he has a method of his own for getting rid of them which will probably prove efficacious. At any rate, it is being tried, and, se far, has been reatonably successful. and Buena Vista streets are greatly exercised over the action of the Police

#### CONTESTED CLAIMS.

The Land Office Will Dispose 20 NOT Them at Once.

WASHINGTON, April 25.—[By the Asso-ciated Press.] Commissioner Stockslager of the General Land Office today said that om present indications contests over land aims in Oklahoma would ultimately claims in Oklahoma would ultimately involve nearly every quarter section of land in that Territory. This being the case, he thought it probable the department would make Oklahoma contested cases a separate class and dispose of them at once. Otherwise in the ordinary course of business it would likely be 18 months or two years before they could be reached. Contests in which abandonment is charged could not be passed upon until after the expiration of six months, as the law does not recognize separation from a claim for a shorter period than six months as abandonment. But cases in which fraud or violation of law or the President's proclamation in going into the Territory prior to April 22d, could be tried and disposed of at once. Impsediately upon the receipt of press re-

tion of law or the President's proclamation in going into the Territory prior to April 22d, could be tried and disposed of at once. Impediately upon the receipt of press reports that Government officials and employes in exishoma used their authority to secure prior rights in lands, the President and Secretary Noble telegraphed special agents now in the Territory, to make a thorough and prompt investigation and immediately bedity the Secretary of their findings. The report is expected during the week. Secretary Noble said that no injustice to the settlers would be tolerated for a moment. As soon as the facts could be ascertained, if officials were implicated in any wrong-doing, the action of the Government would be very prompt and decisive. The Secretary of the Interior today received the following telegram, dated today, from special agents of the department at Guthrie, Oklahoma:

"Everything here is in a quiet condition. The exclusion of figuer has given us a peaceful and orderly community. The land office here is moving smoothly."

When the trial was about to begin the prosecution announced the arrangement. Justice Lockwood demanded the payment of the costs by the defendant, who at first refused. The prosecution refused to pay them, and the Court directed the examination to begin. Mr. Crawford, for the prosecution, requested a minute's recess until he could get his witnesses, which was granted. LOGAN POST.

A Successful Entertainment Last Night.

John A. Logan Post No. 189, G.A.R. give what they call dime entertain ments every fortnight. They consist of a social reunion at which a musica and literary programme is rendered.

Every one pays a dime to come in.

Last night the veterans had one of these affairs at Grand Army Hall on North Main street. The hall was well filled at 8 p.m., about one-half of the audience being ladies. The silk flag of the post hung by the Commander's chair and a stand of arms stood at the foot of the hall. In the center on a table were crossed swords and a Bible open at the Lamentations of Jeremiah. Flowers, donated by Mrs. Tarble, decorated the room.

Gen. Vandever had accepted an invitation to be present at the reunion, and was present at the opening hour.

M. F. Tarble, P. C., called the post to order, and the officers took their stations. Gen. Vandever, accompanied by some friends, entered the hall, and all rose in salutation.

Comrade Tarble introduced the Congressman to his fellow-soldiers, after which Gen. H. G. Rollins, chaplain of the post, made the address of welcome. Gen. Vandever responded in some friendly yet earnest remarks, in which politics were forgotten and only the spirit of patriotism and old comradeship reigned. His short speech was loudly applauded.

After the opening number of the programme, a reception given, at which those present paid their respects to the guest of the evening. He then withdrew, to attend the banquet of the Union League.

The programme for the evening was then gone through with. It consisted of vocal and instrumental music and recitations, as previously announced. The berformers as a rule acquitted themselves with credit, and apparently gave much satisfaction to the audience. George Hanna has a bass voice of great power, and rendered his numbers in fine style.

Mrs. Dunham's rendition of "Barbarie Freitchie," the music by Mrs. Slowman, was not only well sung, but her distinct enunciation made every word understood, a merit rarely met with in vocalists.

Commander Tarble announced that at the next neeting, two weeks hence, Comrade Donnell will read his diary of January 1, 1862. He also mentioned that Frank Bartlett Post will hold an open meeting next Tuesday night. Every one pays a dime to come in.

WASHINGTON, April 25.—[By the Associated Press.] Commissioner of Pensione Tanner today rendered a decision by which the pension of Henry Dembetz will be increased from \$30 to \$72 per month. The pensioner in this case has been receiving a pension of \$30 per month for what is known as Perigoff's amputation of both feet. This amputation is the removal of the entire fool with the exception of the heel bone and integuments of the heel, which are brought forward to cover the ankle joint. The c.ss was presented to the Commissioner today, and he held that the legal distinction between legs or so much of the feet as was preserved in this case and total loss of the feet was a mere technical difference, and that the claimant was entitled to a pension of \$72 per month. This decision will apply to a number of other cases of like nature.

IR-REVEREND JAMES

Criminal Charges to Be Preferred Against Him.

The James scandal is still the leading topic at Long Beach, and, although James has been found guilty and practically deposed from the ministry, the church people and friends of his wife do not propose to let the matter rest, but will institute criminal proceedings against him, and Mrs. James will also

at once begin suit for divorce. William Pollard of Long Beach, the attorney who has taken charge of Mrs. James's case, called at the TIMES office yesterday afternoon, and showed copies of three complaints which had been prepared against James, which he said, would be sworn to, and warrants at once issued for his arrest. The first charge is assault with a deadly weapon, on the person of his wife, on the 3d of April. The next charge is threatening to do Mrs. James great bodily harm, and the third is obtaining property under false pretenses, by misleading various persons by the use of W. W. Lowe's notarial seal, which was obtained by fraud. Mr. Pollard said that officers would go down on the afternoon train, and at once arrest James, if he could be found, but at a late hour District Attorney Kelly said that he had heard nothing about the complaints. It is also probable that James will be prosecuted for printing and circulating obscene literature.

Mrs Pollard said that Mrs. James would also begin divorce proceedings, and that as soon as it was granted she would return to her friends in Eng-land. He further said that in addiwould return to her friends in England. He further said that in addition to the charges preferred against
James at the recent trial, hethad prepared sufficient charges to be presented
at the trial before the general conference, and had secured full evidence of
his cruel conduct at every place where
he has lived for the past seven
years, and that he has been
requested to leave every town where
he has been engaged before his time
expired, on account of his scandalous
practices. In regard to James's charge
that his wife had been guilty of adultery, Mr. Pollard denounced it as false
in every particular, and only put forward to try and save himself. James
had perjured himself at the trial, and
his insanity dodge had fallen flat, and
he believed that the final result of the
trial would be to land James in State's

The Southern Pacific Railroad Company began suit for an injunction against Henrietta Ferris and O. H. Ferris. The suit is based upon an alleged malicious injury which the defendants did the railroad. The line of the read rups through Lyving's subdifendants did the railroad. The line of the road runs through Irvine's subdi-vision of the ranchos Santiago de Santa Ana and San Joaquin, along the prem-ises of the plaintiffs. The complaint charges them with having on April 14th torn up and removed the part of the railroad track in front of their land; also that they tore up the track and threaten to do it again. The company asks for an injunction restraining de-fendants from interfering with its track.

induced her to purchase 12 shares of stock in the Wadman Stove and Plumbing Company. She exchanged certain lots for the stock, and paid \$1400. She claims that the defendants made false representations to her in regard to the value of an oil-burning base-burner stove. The judgment prayed for is the return of the \$1400 which the plaintiff paid for the stock.

David Mitchell, Jr., administrator of the estate of David Mitchell, and Mrs. Jane Mitchell began proceedings yesterday against W. A. Hartwell and C. N. Bradley. David Mitchell died March 7th. It is alleged in the complaint that in May, 1888, the detendants secured a deed to certain lots from him without any consideration. Also, that they secured a mortgage for \$4000 on certain property by fraudulent means, David Mitchell not being indebted to them. The plaintiffs state that the deceased was infirm and weak of mind at the time. They ask that the deed and mortgage to the property be set aside and canceled, and that judgment for \$1375 be granted them for rent that would have accrued on the property of which the defendants have been in possession.

AFTER THE VIGILANTES.

Warrants for Their Arrest in the Hands of the Sheriff. Sheriff Aguirre went down to San Pedro last night, armed with a batch of warrants, which were sworn out by Gus Braman, the man who was treated Gus Braman, the man who was treated to a coat of tar and feathers the other night by about a dozen citizens. Bramer claims that the men who outraged his person are of the lowest order of macs and toughs, and that the more respectable citizens had nothing whatever to do with it. He also claims that he was robbed of \$25 when they pulled him out of his house. Bramer also swore out a complaint against Capt. Koughan, charging him with an assault with a deadly weapon.

Yesterday morning Mrs. Koughan got on the train and came to Los Angeles. Before the train pulled out of the depot the Captain boarded it and attempted to take his child away from its mother, but the woman held on like grim death, and before the Captain could get hold of it several persons on the train came to her assistance, and Koughan was induced to leave the train.

The chances are that some highly sensational developments will be brought out before the matter is settled.

out before the matter is settled.

A Crippled Department is greatly crippled by the reduction of the force, and a great deal of important work is being neglected for the simple reason that there are not enough men to do it. This is especially true in the outlying portions of the city, and property-owners are constantly complaining about the condition of the streets. Supt. Morford is doing everything that he can, but finds it utterly impossible to meet the demands that are made upon him. As the Colonel puts it, he feels like a man trying to bore a big auger hole with a very small gimlet.

LETTERS TO THE TIMES.

The Los Angeles Exhibit. Los Angeles, April 25.—[To the Editor of The Times.] In your issue of the 24th inst., in regard to my visit to the State Board of Trade while in San Francisco, you say I am "at a loss bath Francisco, you say I am a to know where the blame lies; it may be the fault of the people down here, and it may be jealousy on the part of the managers of the Northern Citrus

Belt boom," etc. This is a mistake. The blame, in my opinion, lies entirely with the people of our county. The manager. Mr. Davies, both assured me that they would with pleasure place our exhibit in one of the most prominent places in heir rooms.

both assured me that they would with pleasure place our exhibit in one of the most prominent places in their rooms if we would only send them the necessary products to display.

They explained to me that one or two counties of this State had more space than they were entitled to, and as soon as we furnish them with a suitable case they would move these and give us the prominence we are entitled to.

To my own knowledge, Secretary Higgins, of the Chamber of Commerce, has time and time again requested donations for the State Board of Trade, and that the results of his requests are as I found them. The blame rests entirely with our people, in my opinion; if they would forward their products to the Chamber of Commerce they will be forwarded to the State Board of Trade by the Southern Pacific Railroad Company (who have kindly consented to send all exhibits to the State Board of Trade free), and when there I am satisfied that they will be well displayed by the managers of that institution. Respectfully, T. H. WARD, Secretary Board of Trade.

Foul Sewer Gas. Los Angeles, April 22.—[To the Editor of The Times.] Attention is Editor of THE TIMES.] Attention is called to the foul sewer gas arising from sewers along the east end of Temple and Court streets and northend of Fort, Hill and Olive streets, which almost makes the air thick with foulness, and unless something is done to stop it it is sure to cause an epidemic. Is it because the sewers have not been flushed? It seems to come in the evening, about once a week, and is driving people away already. I trust you will keep the subject agitated until something is done.

The examination came off yesterday afternoon, much to the disgust of Deputy District Attorney Marble. When he put his prosecuting witness on the stand she would not swear to what she had sworn before, but said that there was no row, and that the woman did not try to cut her; that it was accidental. Of course there was nothing to do but to dismiss the defendants, which was accordingly done, at the request of Mr. Marble.

A FRUIT-CANNERY TO BE ES TABLISHED AT LAST.

Meeting of Those Interested in the Scheme-The Rainbow Bazar-The Rapid Transit Railroad-Observatory Notes.

PASADENA, April 25.—[Correspondence of The Times.] H. W. Magee, father of the project to establish a cannery interest in this city, has seen the result of his meditations and the seed already sown by him fallen on good ground, and now all that remains is for the fruit to blossom, grow and be marketed. At 4 o'clock this afternoon 15 stockholders in the proposed fruit-packing company met in the rooms of the Board of Trade, and adjourned one hour later, after selecting a board of five directors. The meeting was called to order by the selection of H. W. Magee as chairman and E. E. Fordham as secretary.

selection of H. W. Magee as chairman and E. E. Fordham as secretary.

The first business taken up was the question of a suitable name for the corporation. A. F. M. Strong suggested it be called the Pasadena Fruit and Packing Company. Other names were mentioned, but C. E. Tebbetts moved that the name and a proposition made by Mr. Wallace to dispose of his stock and good-will to the company be left to the board of directors, which was carried. Mr. Wallace offered to dispose of his interest for \$1000 worth of stock or \$200 in cash. The question of haste in getting matters to an early focus was next considered, and after some discussion an article bearing on the subject and the building and cost of a cannery was read by the Chair, as published in a late issue of the San Francisco Chronicle. On motion of C. E. Tebbetts the name of the company was left to the decision and judgment of the board of directors, with power to act. The selection of such a board then came up, and, after considerable discussion, the limit be confined to five members.

A BOARD OF HEALTH. It has been hinted a majority of the Council is in favor of abolishing the office of City Health Inspector. The office of City Health Inspector. The salary considering the unsanitary view of the position is meager, \$50 a month. It has been suggested a volunteer board of physicians be appointed to do the work gratuitously, and report the result of their investigations at regular meetings of the Board of Trustees. In case an epidemic should break out the employment of a good health officer, such as the city now has, would be found to be a saving help in time of need. It is certain the Council intend doing something in the matter.

THE BAINBOW BAZAAR. The Rainbow Bazaar in progress today and this evening, under the direc-tion of the ladies of All Saints' Epistion of the ladies of All Saints' Episcopal Church, at the Carlton dining hall, is the most unique affair ever given in Pasadena. The arrangement of the booths, representing the colors of the rainbow, as they are blended together, was done with great taste and judgment. From noon until nightfall and all through the evening the spacious hall was crowded with interested visitors.

A description of the various booths could not be omitted and is here given. On entering the first booth that meets the eye and attracts a fair share of attention is the violet one, where candy, violets and fancy work are sold. It is provided over by the following young ladies: the Misses Grace Wotkyns, Tura Green, Fanny

Next along was the indige booth, in corresponding colors. Here little homeopathic doses of medicine were dispensed in circular card boxes to any purchaser affected with the "blues." The ladies in charge were Mrs. James Hewitt, Mrs. L. C. Torrance and Miss Georgiana Bassett. As one passes along, the blue booth, with its boxes of bon-bons, stands ready to welcome the fortunate holder of a sweet tooth. handsomely decorated with palms,
leaves and flowers. Teacakes and
fancy work were sold.

Further along came the yellow
booth, where lemonade was dispensed
to the thirsty at a moderate cost in
handsome cut-glass cups. The patronesses were Mrs. E. R. Hull, Mrs.
Lillie Littlefield and the Misses Jennie Winston and Mamie Bradley.

The orange booth, next door, attracted a good deal of attention, and
citrus fruits hung suspended from the
rafter above to tickle the palate. The
display of tropical fruits was indeed
very fine, and many mementoes of the
fruit sold. The ladies in charge were

Last, but not least, comes the white booth, so ably looked after by Mesdames Byron, W. Bates, S. S. Avery, Samuel Chaplin, W. O. Bellarre, and the Misses Emily F. L. Collamer and Ethel Graham. The stock-in-trade was fancy work in needle and lace.

This evening refreshments were served, to which a large crowd did ample justice. At 11 o'clock the fair was concluded, and was a social as well as financial success.

The "pot of gold" was a novel feature of the bazaar and was supposed to come in after the rainbow. G. G. Green—Dear Sir: I am frequently troubled with severe colds, and the only remedy that will relieve me of them is your Boschee's German Syrup. I have used it for more than twelve years. It is a constant housened companion with me. Our-merchant here procured it first at my solicitation, and says he has sold a great many bottles. It is a very popular remedy in this section. Every person who has used it speaks in the highest terms of its merits. I do not know of a single case it has not cured. I first used it in Vermont, where I lived before coming here. I advise every one to use it, as it is certainly the best cough medicine I have ever known. I have tried nearly all of them at different times. Yours respectfully. Mosks Grax.

THE BUNCO MEN.

FINE-DRAWN QUIBBLE BY WAY OF DEMURRER.

The Right of Justice Lockwood to Hear the Case Questioned and the Status of Los Angeles Suggested as Open to Inquiry.

Some interesting points were raised yesterday in Judge Cheney's court in the bunco case against Frank E. Rose and James Hood, charged with con-spiracy to cheat and defraud J. B. Haskins. They are points bearing upon matters outside the merits of the case, and involve certain powers of the city government under the new city char-ter. They are brought out by a demurrer filed in the case yesterday morning by Messrs. Payton & Grant, counsel for the defense. A motion was also filed to set aside the information. The demurrer claims that the court has no jurisdiction to try the case, for the fol-

demurrer claims that the court has no jurisdiction to try the case, for the following reasons:

Because they say that they are charged on section 183 of the Penal Code of the State of California with a conspiracy, which is a misdemeanor punishable only by fine or imprisonment in the County Jail, or both, and that said alleged offense, if committed at all, which they deny, was committed within the corporate limits of the city of Los Angeles, and was and is triable alone in the Police Court of said city, under and by virtue of section 101 of article 10 of the charter of said city, which said charter was duly adopted and went into full force and effect January 31, A.D. 1889, and said offerse is alleged to have been committed on the 25th day of March, 1889, and not before.

For further cause of demurrer they say that this court has no jurisdiction of this case because of the fact that, under sections 1 and 2 of an act passed and adopted March 18, 1885, by the Legislature of the State of California. exclusive jurisdiction of all misdemeanors is given to the City Justices' Courts in all cities of this State that have a population of 30,000 and not more than 100,000, when such offenses are committed within the corporate limits of such cities.

That the city of Los Angeles has more than 30,000 and less than 100,000 inhabitants, and that the offense with which these defendants are in said information charged is a misdemeanor, and punishable only by fine and imprisonment in the County Jail; and if committed at all, which thay deny, it was so committed at the Crystal Palace, on Main street, between First and Second streets, which is in the heart of said city; and that Judge Lockweod, who held the examining trial of these defendants on this charge, was and is one of the two duly elected, qualified and acting City Justices of said city, and when these defendants on this charge, was and is one of the two duly elected, qualified and acting City Justices of said city, and when these defendants on this charge, was and is one of

THE MOTION TO SET ASIDE. The motion to set aside the information is based upon a charge that Rose and Hood have not been legally com-mitted or held to answer, for the rea-sons set forth in the demurrer. That it has not been judicially or legally ad-judged or determined that Los Angeles has more than 30,000, but not more than 100,000 inhabitants; that nutil if has more than 30,000, but not more than 100,000 inhabitants; that until it is determined the city is entitled to but one City Justice, and that Justice H. C. Austin has been duly elected as such Justice.

The Court took the demurrer under advisement and for the present overruled the motion to set aside the information.

"The Color" Near Pomona. A correspondent of THE TIMES

writes from Pomona:

"There is quite an undercurrent of excitement in Pomona regarding some placer mines in the mountains, about seven miles due north. Particulars are hard to obtain, but I have met two or three persons who have seen the gold already washed out. It is coarse float gold, found in red gravel and decomposed quartz, and covers considerable territory. A company has been formed, but do not know who compose it. There will be more developments in a few days, when you will receive further particulars." writes from Pomona:
